Principal's message

Dr. Lekh Ram Saini

“Embrace each challenge in your life as an opportunity for self transformation”.

I am grateful for my teachers. To completely rework what teaching looks like, to work tirelessly to connect to students and families during this long stretched COVID-19 pandemic. They do it with passion, flexibility and grace that shows me how deeply invested they are in teaching and nurturing our students. The child doesn't only need a good education but a fulfilment of many elements that are not only associated with academics but also the child's holistic development. I congratulate Mr. Amlesh Kumar Meena (HM) and his team for the excellent efforts which they make to help these tiny tots grow. I wish them all the best and hope that this tradition continues !

Co-Curricular Activities

“The quality of life is determined by its activities.”

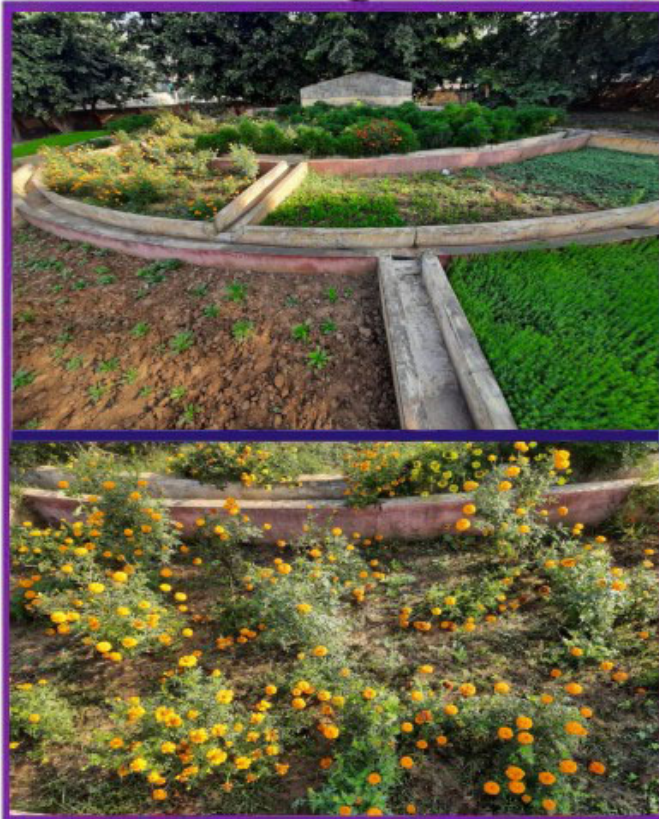

And that is why, Co-curricular activities are important for several reasons. They can enhance a student’s academic development and performance. They can also help a student to build several important life skills in area such as leadership, organization, confidence and socialization. Principal and teachers always encourage children to pursue their imaginative creativity and CCA gives them a platform where they participate to show their hidden talents.

CCA ACTIVITY

CHILDREN'S ACTIVITY

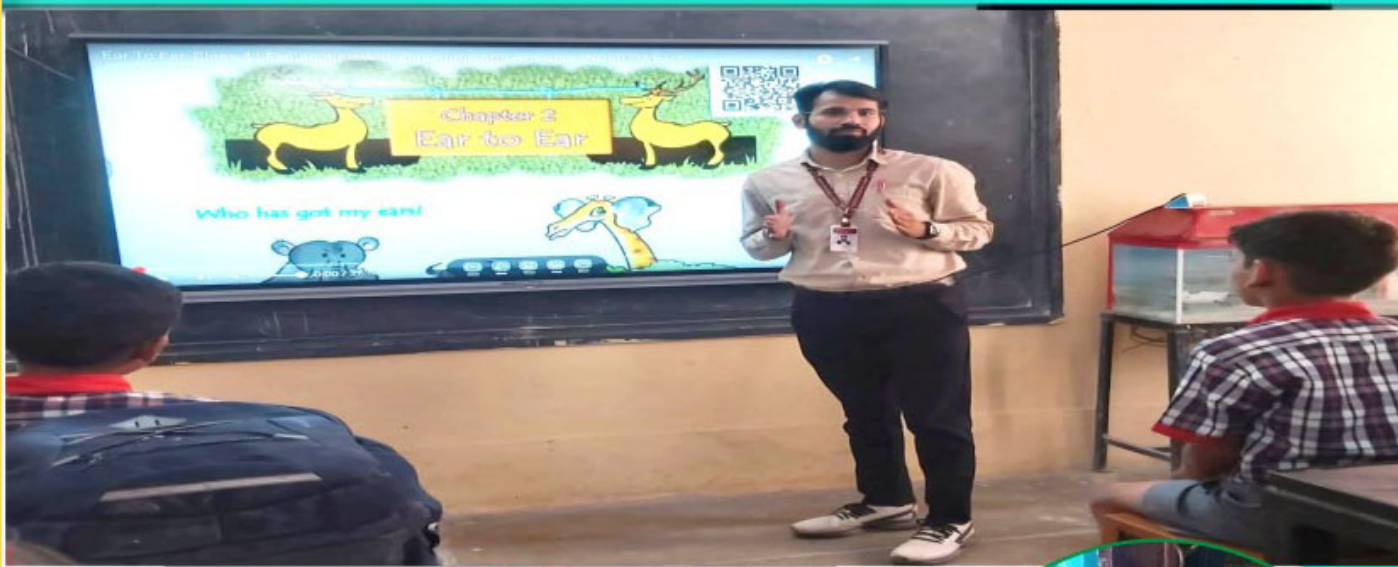

“Don't let your learning lead to knowledge. Let your learning lead to an action”.

And this is the reason, KV No.1 organized “hands on activity” programs for the overall development of children.

Learning online to offline

Virtual to Real mode of learning :

It is well said, **“without teachers life would have no class.”** In the age of school closures, hybrid and remote learning caused by the COVID-19 pandemic, this quote surely seems appropriate. When KV Alwar No.1 welcomed its primary class students for physical school after almost two years of online learning. There was much excitement among students, teachers and parents. They demonstrated unanimous willingness to be a part of the learning process which they have not yet experienced in online learning.
